Happy birthday! Hope you enjoy using this program as much as I do!

Before touch up

After touch up

Portrait Professional is a radical new way to enhance portraits, because it has been trained in human beauty. It offers complete creative control, allowing you to improve any aspect of your picture instantly - just by moving sliders.

So superb results can be produced by anyone quickly and easily, without hours of frustration and hassle.

System requirements:

Windows 7, Windows Vista, Windows XP, or Intel Mac OS X (10.5 or later)
